

PreModule Notes

- This module is the start to something big. It is like a toolbox. When I go on a project, I take my toolbox with all the tools that I need to succeed in my project. You are building your business. You need to have the right tools to build a strong foundation of understanding.
- These tools will help you be a success in business and in life. Learn to use them and make them part of your everyday experience.
- You have to use your tools in order. If you skip a step, you may not have the tool you need to go to the next step. These videos are only 2-5 minutes. It won't take long to get the info you need. Make sure you watch all the videos so you have the toolbox you need to build your business.
- If you don't do these in order, things may not work the way they were created. You may come to the next module and you cannot continue because you did not bring your tools from the previous module.
- When you go through these videos, turn off your cell phone, facebook, your little sister, fluffy . . . you get the point. All these modules are only about thirty minutes with all the videos including the take action, mentor and teen vides. You must set aside time to focus on learning about your business. You don't want something to distract you from learning.
- I suggest going to the same location every time. Pick a place that is comfortable for you to learn about business. When you go to the same place, your brain triggers and says, "Hey, I am here in this place, it must be time to learn about business." This will also help you when you study. If you pick the same time and place to study, your brain will remember more. Plus, when you go to take a test, you imagine you are in your study place and you will remember things so much easier.
- Go through this with your parent/mentor. When the video is finished, talk about what it means and what you learned. You want successful things to stick in your head. There is a lot of muck in this world. They say you can't do this, you can't be a success, you are too young, blah, blah, blah. Don't let those words affect you. Find people who support what you are doing and lift you up. Then you can enjoy this adventure called business.

If you are viewing this page because you are looking into this program, we hope you find this page helpful. The information teen will get through this course will change their lives and yours as well. You will be building a relationship with your teen and learning great skills together. I highly recommend you giving us a try. We offer a full 60 days refund policy, so there really is nothing to lose. Your adventure with your teen can start today.
